

Adult Learning and Skills.

[Home](#) > [Tutor resources](#) > Family learning resources

Family Learning resources can be accessed using the buttons below.

You can include these resources:

- in your lessons
- by sending them to learners to complete for homework
- by providing them to learners to promote independent study

To enrich the learners' experience, you will also find links to help you to embed other topics into your scheme of work such as ESOL and Wider Impacts and Online Tools.

To support your colleagues, please share your favourite resources on this site by emailing them to the Curriculum Management Team: curriculum.managementteam@cambridgeshire.gov.uk

Google Classroom can help you to organise sessions, set tasks and work collaboratively with learners and other tutors. You and your learners will be provided with a Gmail address specifically for teaching and learning. To get set up, please contact the Curriculum Management Team curriculum.managementteam@cambridgeshire.gov.uk

Some other resources to help you
